HISTORY IN MINIATURE

Bugatti: Speed, Style & Special

The Bugatti story is best known in the automotive arena where Ettore Bugatti started small, gained speed and then made a large impact on the world with his victorious race cars and luxurious grand touring cars including the ultimate Royale, the record breaking AutoRail trains plus boats & airplanes. His tiny factory estate only produced about 8,000 handmade vehicles but they are still highly sought after. This exhibition shows virtually all produced Bugatti designs.

The history of Bugatti is also the history of models. Bugattis cars were so popular that all types of miniatures were produced to satisfy the general population as well as the collector market. Some of the miniatures are almost as old as the original cars; some as expensive.

Right
Entrance to Exhibit:

Welcome Sign, T52 Bugatti factory built, and various display cases.
